### **Computer System**

This practice operates a Clinical Computer System on which NHS Staff record information securely. To provide around the clock safe care, unless you have asked us not to, we will make information available to trusted organisations. Wherever possible, their staff will ask your consent before your information is viewed.

We consider patient consent as being the key factor in dealing with your health information.

### **Shared Care Records**

To support your care, and improve the sharing of relevant information to our partner organisations when they are involved in looking after you, we will share information to other systems. The general principle is that information is passed to these systems unless you request this does not happen, but that system users should ask for your consent before viewing your record.
